

SharedBookshelves

Want to read more Christian books?

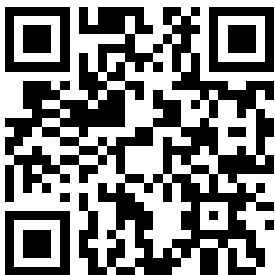

SharedBookshelves.com is a website that allows church members to list books that they own and want to read in a virtual library so that others in the same church can browse, lend and borrow books.

In addition to the website at SharedBookshelves.com, we have some mobile apps to make adding books very easy, with a barcode-reader that uses the camera to scan the book's ISBN.

To download the iOS or Android app, search for "Sharedbookshelves" or browse to the URLs below:
